- Background in electronic engineering
- Been performing armoury repairs for over 10 years. Services and repairs equipment for many individuals and clubs within Hertfordshire, London and surrounding area.
- Registered Armourer with the Guild of Armourers

Course Description

A basic knowledge of armoury is essential for all fencers as it enables you to maintain your kit. Have you ever been convinced that you've scored a valid hit, only to find that no light has appeared on the box, or have you ever found that a white light has come on while you are fencing for no apparent reason?

This course will teach you how to solve these sorts of problems, helping you to be more successful as competitive fencers and saving you money by showing you how to fix your kit instead of buying unnecessary replacements!

From weapon and body-wire fault finding to full weapon rewire this course will give you skills to fix your own or club equipment.

Course Specifics

Candidates should bring with them a small tool kit, some working and non-working weapons and body-wires. If you don't have any non-working equipment, your club will probably have some you can repair for them.

It is recommended that you bring a up to date rule book/penalty sheet with you. This can be purchased from British Fencing & Leon Paul or downloaded from www.britishfencing.com/governance/rules/

THERE IS AN ONSITE CAFE SERVING FOOD AND DRINK.

APPLICATION FORM FOR ARMOURY COURSE
